Successful Launch of The Hill

On Saturday May 3rd and Sunday May 4th, the launch of The Hill was celebrated during two cocktail parties. Accompanied by live classical music, about 180 guests were enjoying a good selection of beverages and a variety of appetizers whilst watching the sunset.

After watching the "The Hill" movie on a large screen, the sales office was ceremonially opened by the cutting of a red ribbon.

The press was present on both Saturday and Sunday and The Hill received a lot of coverage in Turkish and International newspapers and on television.

The interest shown by the guests was overwhelming and the sales team informed the guests about the project details and made appointments for more in-depth meetings.

THE HILL honoured by Konakli town

On the first day of the launch, the Mayor of Konakli town presented an award to Koray Construction for the high level of construction quality and for the responsibility shown towards the environment.

We are proud to receive such a unique prize from the municipality because it proves our motto: "We are raising the bar in the second home market in Turkey".

Şamil Çapar, the General Manager of Koray Construction has stated in the Project's publicity meeting: "We live the rightful pride of bringing Koray Construction, a Turkey brand, to Alanya". General Manager Çapar, who expressed that Koray Construction tends to create qualified, boutique, exclusive and limited edition residences instead of public housing, also said that they are leading the sector in terms of quality, trust and esthetics.

Mr. Çapar, who emphasized that they provide their customers with a Guarantee Certificate, offered by only a few construction companies, said: "We determine the standards within the sector and request everyone willing to own a house to demand this from the construction companies. Now people in Alanya will get to know these standards as well. THE HILL Project will make a name for itself as an example project in all coastal regions. We are realizing a project that exceeds the expectations."
